

ADC Exported Constants

ADC common - Measurement
path to internal channels

```
graph RL; A[ADC common - Measurement path to internal channels] --> B[ADC Exported Constants];
```

The diagram consists of two rectangular boxes. The box on the right is shaded gray and contains the text 'ADC common - Measurement path to internal channels'. The box on the left is white with a black border and contains the text 'ADC Exported Constants'. A black arrow points from the right box to the left box, indicating a flow or dependency from the measurement path to the exported constants.
