

DMA Exported Functions

Peripheral State and
Errors functions

```
graph RL; A[Peripheral State and Errors functions] --> B[DMA Exported Functions];
```

The diagram consists of two rectangular boxes. The box on the right is shaded gray and contains the text 'Peripheral State and Errors functions'. The box on the left is white with a black border and contains the text 'DMA Exported Functions'. A black arrow points from the right box to the left box, indicating a dependency or relationship where the peripheral state and error functions are used by the DMA exported functions.
