

I2C Exported Functions

Input and Output operation
functions

```
graph RL; A[Input and Output operation functions] --> B[I2C Exported Functions];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The box on the right is gray and contains the text 'Input and Output operation functions'. The box on the left is white with a black border and contains the text 'I2C Exported Functions'. A black arrow points from the right box to the left box, indicating that the input and output functions are used by or depend on the I2C exported functions.
